HOME PHILOSOPHY visionnaire

MYTHICA
SALONE DEL MOBILE MILANO 2022

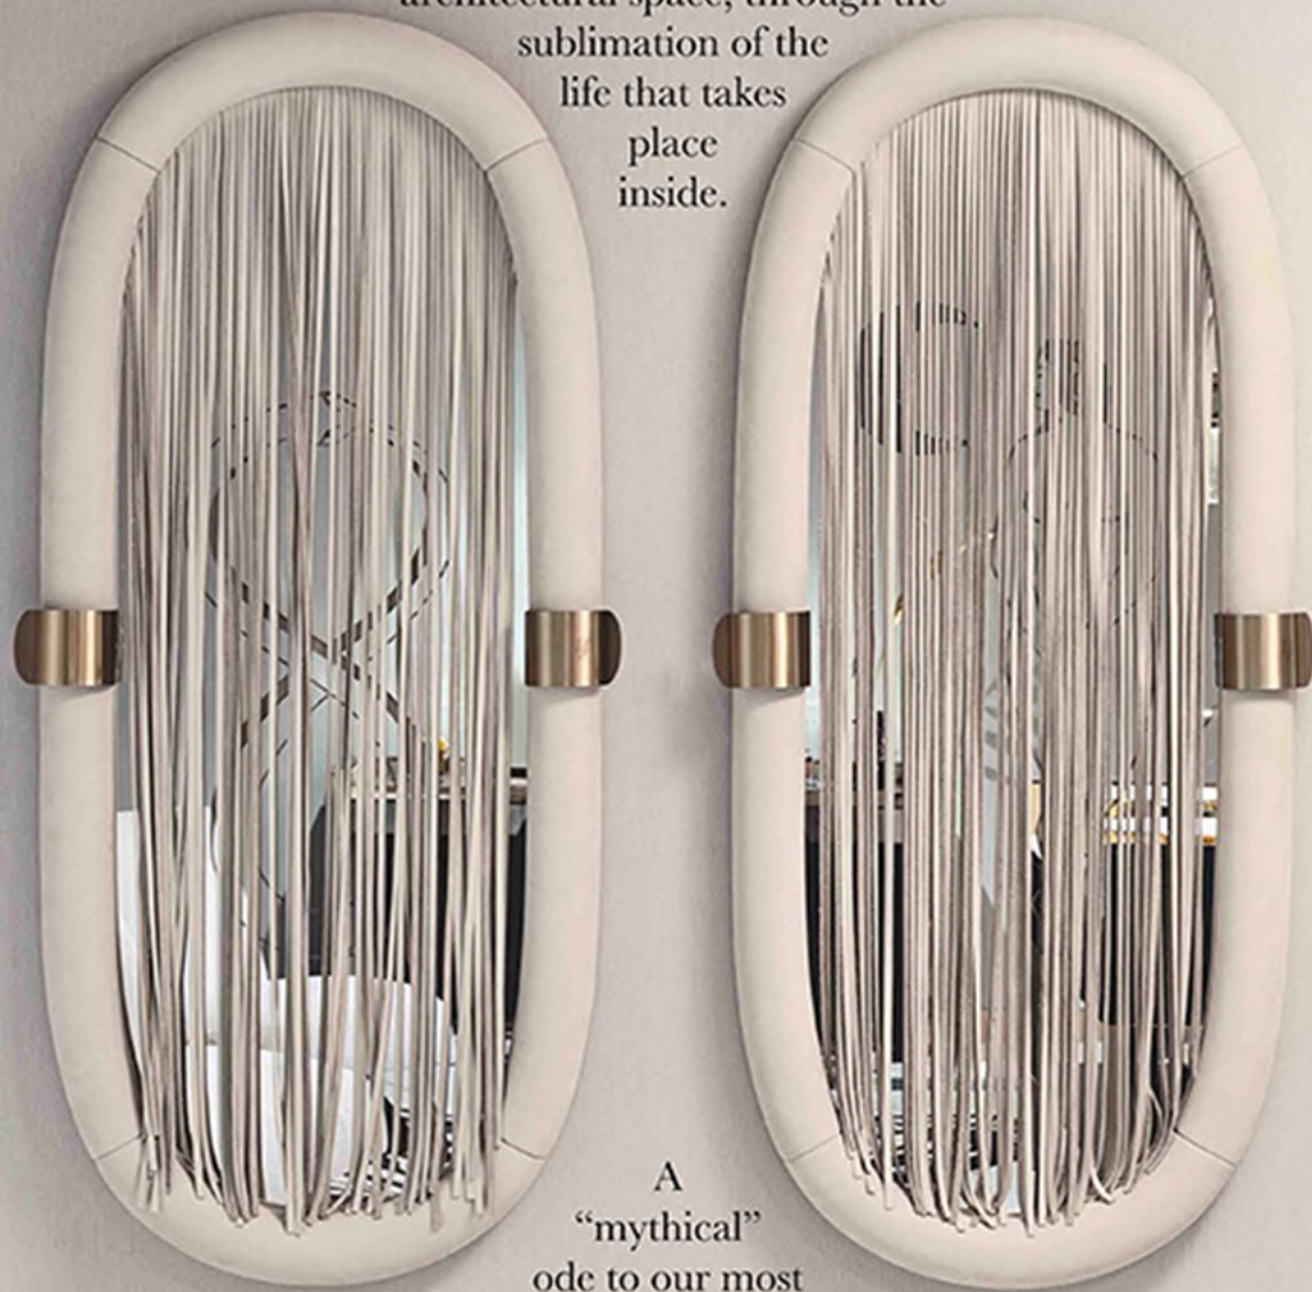

Alexis Says...

“Visionnaire always makes my feature list for its ability to charm my senses through their extraordinary Italian furniture designs that make a home feel like your temple, and each room your sanctuary. Enjoy the Mythica, Salone Del Mobile Milano 2022 Collection on the coming pages.” ~ Alexis Day

Home is not just a separating perimeter, but also a space that frames our bodies, in which people and objects live in a spontaneous harmony of mutual belonging. Visionnaire reflects on an idea of living that goes beyond the functional concept of architectural space, through the sublimation of the life that takes place inside.

A
“mythical”
ode to our most
intimate and powerful daily

rituals, narrated by the brand’s long-term roster of talent – Alessandro La Spada, **Mauro Lipparini**, Draga&Aurel, m2atelier – as well as new collaborations – Studiopepe and Marta Naddeo – with which it has been possible to imagine the home as a simulacrum of our personal stories.

Mythica is the collection Visionnaire presented in June at the Salone del Mobile.Milano, with a name that also pays homage to a double 60th anniversary – that of the Salone and that of the company's constant participation in the Italian fair.
